

Enrolling in Mobile Banking

Step 1– Search GECU mobile in your app store. You may need to scroll down a bit until you see the app that looks like the icon to the right.

If you have already enrolled in our new Online Banking, you may simply login using your credentials. If this is your first time logging into our new system, you will need to follow the instructions below.

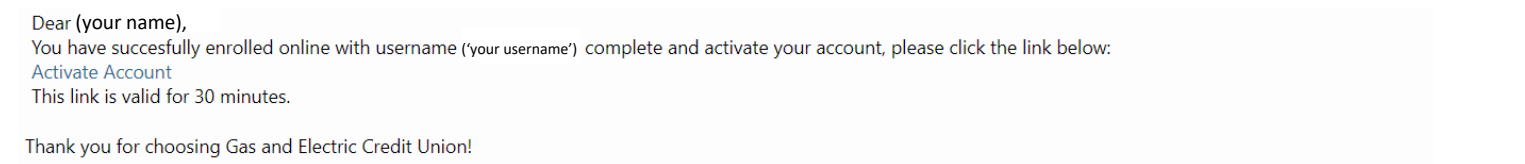

Step 2– Enter your social security number & email address. You MUST enter the email address associated with your Credit Union account. If any of this information does not match what we have in our system, you will receive an error message.

This screenshot shows the 'Online Banking Enrollment' screen at the 'Member Information' step. At the top, there is a green header with a back arrow and the text 'Online Enrollment'. Below the header, the title 'Online Banking Enrollment' is displayed. A green button labeled 'Enrollment Steps' with a dropdown arrow is present. The main section is titled 'Member Information' and includes a blue informational note: 'To get started, enter your Social Security Number and Email Address. In order to protect you from fraud, we require that your Social Security Number and Email Address are already on file. Please call the credit union to enroll if you don't have an Email Address on file.' There are two input fields: 'Social Security Number' with the placeholder '999-99-9999' and 'Email' with the placeholder 'you@somewhere.com'. A green 'Next' button is located at the bottom right of the input fields. At the bottom, a light blue box titled 'Required Information' states: 'To enroll online, you will need your Member Number, Social Security Number, Date of Birth and the Email address we have on file.'

Step 3– Enter your member number (account number) and date of birth. You will also select a username and password. You *may* be able to use the same username as you have with our previous Online Banking, as long as it is available and fits the criteria.

This screenshot shows the 'Online Banking Enrollment' screen at the 'Member Information' step, continuing from the previous screen. It features the same green header and title. Below the 'Enrollment Steps' button, there are four input fields with their respective labels and instructions: 1. 'Member Number' with a text box and the instruction 'Up to 7 digits, No dashes, No spaces'. 2. 'Date of Birth' with a text box showing 'mm/dd/yyyy' and a calendar icon, with the instruction 'Between 8 and 30 characters, Case Sensitive'. 3. 'Select a Username' with a text box and the instruction 'Between 8 and 30 characters, Case Sensitive'. 4. 'Enter a Password' with a text box and the instruction 'Between 8 and 30 characters, Case Sensitive, Can only contain letters, numbers and the special characters: '@', '.', '-', and '_''. A 'Re-type Password' field is partially visible at the bottom.

Step 4– Once this information is submitted, you will receive a confirmation email from Member Services which will look like the one below. Once you click on the secure link to activate your account, you will be directed into your account information. If you do not see the email, make sure to check your spam folders.

Please note that when you login again, the system will request the last four digits of your social security number for verification. You may change this verification method to either SMS verification or you may create a different challenge question. To adjust these settings, once logged in, go to General and Account Preferences.
